SUMMARY

Passionate and self-motivated software developer with expertise in Python, Flask, FastAPI, and machine learning. Proficient in developing AI-driven applications, web platforms, and automation tools. Adept at problem-solving and building innovative solutions. Currently seeking an opportunity to apply my skills in a professional setting.

- TECHNICAL SKILLS
- Programming Languages: Python (Flask, FastAPI), JavaScript
 - Machine Learning & AI: Scikit-learn, TensorFlow
 - Web Development: HTML, CSS, JavaScript, Flask
 - Databases: SQLAlchemy, PostgreSQL
 - API Development: REST, WebSockets
 - Cloud & Deployment: Vercel, Render
 - Tools & Libraries: Pandas, NumPy, OpenCV

- PROJECTS
- Mock Interview AI Bot
 - Developed a web-based AI chatbot that conducts mock interviews using ChatGPT.
 - Analyzed candidates' responses and provided automated feedback on interview performance.

Movie Recommendation App
 - Created a movie recommendation system using machine learning algorithms.
 - Implemented a user-friendly interface where users receive personalized movie suggestions based on their preferences.

Car Price Prediction Model
 - Built a machine learning model to predict car prices based on various attributes like brand, mileage, and year.
 - Integrated the model into a web application for user-friendly interaction.

Railway Indore Navigation System (SIH Hackathon Project)
 - Designed a navigation system to help users find facilities and locations in Indore railway stations.
 - Integrated mapping and real-time location tracking features for enhanced navigation.

EDUCATION

Baba Farid Group of institute

Bachelor's in Computer Science Engineering | 2022 - 2026

- CERTIFICATIONS & ACHIEVEMENTS
- Smart India Hackathon (SIH)– Developed an AI-powered railway navigation system.
 - Machine Learning Projects – Car price prediction, Olympics Dashboard, House price prediction.
 - FastAPI WebSocket Chat App Deployment – Successfully deployed a real-time chat app with SQLAlchemy.
